

QUALITY & SUCCESS

GROUP OF COMPANIES MN

ABOUT COMPANY

Our group started its commercial activity in 2002, Moscow, under name "GRAN": now it specializes in building sphere.

Young company MN with specialists of technical and control profile started their commercial activity in Ukraine and Latvia because of growth and implementation of more effective and global management in 2004. In 2008 the company created its organizational structure in Romania due to the appearance of new projects. Thanks to the increasing value of professional and commercial activities we joined all our companies in one office, which is located in the center of Ankara, and its name is group of companies "MN"
